

### HUGOTON ROYALTY TRUST DECLARES OCTOBER CASH DISTRIBUTION

**Dallas, Texas, October 20, 2009** – U.S. Trust, Bank of America Private Wealth Management, as Trustee of the Hugoton Royalty Trust (NYSE – HGT), today declared a cash distribution to the holders of its units of beneficial interest of \$0.096543 per unit, payable on November 16, 2009, to unitholders of record on October 30, 2009. The following table shows underlying gas sales and average prices attributable to the net overriding royalty payments made by XTO Energy Inc. (XTO Energy) to the Trust for both the current month and prior month distributions. Underlying gas sales volumes attributable to the current month distribution were primarily produced in August.

	Underlying Gas Sales Volumes (Mcf) <sup>(a)</sup>		Average Gas Price per Mcf
	Total	Daily	
Current Month Distribution	2,228,000	72,000	\$ 3.41
Prior Month Distribution	2,171,000	70,000	\$ 3.30

(a) Sales volumes are recorded in the month the trust receives the related net profits income. Because of this, sales volumes may fluctuate from month to month based on the timing of cash receipts.

XTO Energy has advised the trustee that two wells are currently being drilled on the underlying properties and that it has deducted budgeted development costs of \$500,000, production expense of \$1,678,000 and overhead of \$908,000 in determining the royalty payment to the Trust for the current month.

#### Other

XTO Energy has advised the trustee that lower gas prices due to reduced demand as a result of the U.S. recession and excess supply caused costs to exceed revenues on properties underlying the Kansas net profits interests. However, these excess costs did not reduce net proceeds from the remaining conveyances. XTO Energy advised the trustee that even with the increase in recent gas prices, it will take several months to fully recover the excess costs.
